1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Willem F.C. de Weerd on 9/30/04.

The application has been amended as follows:

1) Claims 25, 27-29, 35, 42, 51-83, 85-88 and 96-98 have been canceled without prejudice.

2. The following is an examiner's statement of reasons for allowance: rejection of claim 19 and 84 under 35 USC 112 second paragraph is hereby withdrawn subsequent to applicants' arguments. The rejection of claim 89 under 35 USC 102 is hereby withdrawn subsequent to applicants' amendment. The rejection of claims 15-16, 18, 23-24, 30-34, 36-41, and 43-44 under 35 USC 103 is hereby withdrawn subsequent to applicants' submission of Declaration which expressly suggests unexpected results of para positional isomer as compared to meta positional. The closest prior art is Honda et al(US 6,534,546), which teach structurally similar compounds, and composition as claimed herein. See for example, compound 36 in column 31. However, applicants have submitted a declaration in which they have unexpected results due to para positional isomer as compared to meta positional isomer. Hence instant claimed compounds and composition are patentable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
